

General:

When connecting an audio/video source often it results in noise or image distortion. This problem occurs when the engine (dynamo) of the car runs. This filter is able to filter the power supply and the audio and/or video distortion will disappear.

**Features:**

Range 12 AMP - 15 AMP

The following will be supplied:

- Power filter
- Warranty
- Invoice

Product specifications:

- Sizes: 95x 60x 45mm
- Power rating: 12 AMP
- Peak current: 15 AMP
- Voltage range: DC 12V
- Connection: Loose ends
