

Mirror screen 4:3; 480x272; Touch Buttons; 2* AV in; 350 cmd; PAL/NTSC (Clip on type)

Art. Nr: TFT-MIR2

Replace your normal rearview mirror and say hello to reverse maneuvering and parking made easy with this Car Rearview Mirror with Built-in 4.3 Inch Monitor and Camera.

This convenient Rearview Mirror Monitor conveniently fits over your existing rearview mirror to automatically display an accurate and clear view of everything behind your vehicle as you reverse. If you have trouble with parallel parking, then this car accessory will be your next best friend and is the best choice for car safety and reverse driving. The 4.3 screen being built right into the rearview monitor also lets you see what's coming in front, allowing you to easily notice incoming cars and people.

Other excellent features include an additional Video IN for other video devices such as a car DVD player, GPS navigator, as well as built-in loud speakers for the perfect media experience in your car. You definitely won't be complaining when stuck in traffic
