

General

The NavInc steering wheel interface enables to convert the resistive signals to usable analogue signals. Because of the interface the original steering wheel functions of the vehicle keep working in combination with an aftermarket radio- or navigation system

The interface is suitable for Renault models and 20 aftermarket radio- and navigation system manufacturers.

See tab "Downloads" for the complete compatibility list or see this link:

- The interface is CE, FCC and TUV certified

Product specifications:

Voltage: 10 - 16V VDC

Standby consumption: 0,001 A

Decrease in Operating: 0,048 A

Temperature range: - 30°C up to + 80°C

Weight: 42gr

Dimensions: Width 65mm x Height 65mm x Depth 25mm

Compatibility

The interface is compatible with the following models from Renault:

Y = Yes

N = No

Citroen

1

2

3

4

1: Steering Wheel compatible

2: Phone buttons compatible

3: Plug and play adapter available

4: Article plug and play adapter
