

ACTIVE SOUND

DESCRIPTION

LEO ACTIVE SOUND - Starters kit

"If You Can Hear, You Can Sell!!"

Demonstration and stock kit in one. With this kit you can do a live demonstration in the customer's car.

If the customer likes the LEO ACTIVE SOUND you can remove the clamp and install this kit to the car.

Next time you order the item you used with the last installation.

Installation steps:

- 1: Connect the speaker cable with label "SPK1" with the LEO Sound module
- 2: Connect the grey plug with the LEO sound module
- 3: Plug the OBD dongle into the OBD port.
- 4: Connect cigarette plug with the car 12V
- 5: Put the trolley under the car near the original exhaust
- 6: Connect your phone with the LEO Active Sound 5.0 APP
