

## DESCRIPTION

### General

The NavInc NAVconnect interfaces allows for connecting an aftermarket camera to the original Easylink 8 inch system from Dacia.

The interface is equipped with: 1\* Rear camera input.

### Features

- 1x Rear camera input
- Support NTSC cameras
- Parking sensor split screen option
- iPAS parking lines (moveable grid lines)
- 3 Year warranty & Support

## CAMERA FEATURES

### iPAS parking lines

The Easylink creates moveable grid lines in the camera picture.

The guidelines makes it much easier to determine the distance to the object you are driving towards.

The guidelines are not adjustable.

### Split screen

The Easylink has a menu which you can select the full screen mode or splitscreen mode.

## NOTES

## LEGAL INFORMATION

---

The driver of the vehicle should not be inferred from the motion images. In many countries, watching movies while driving is prohibited. Therefore we accept no responsibility for material or personal injuries, directly or indirectly, due to installation of the interface modules.

Interface and Software basic information:

The NavInc interfaces are no navigation systems or screens to replace the navigation system. The NavInc interfaces enable the possibilities to connect different Audio/Video sources to the navigation system.

Manufacturers create adjusted software and hardware versions, options and enhancements which ensures that the compatibility of the products cannot be guaranteed 100%. Compatibility lists are based on customer feedback and experiences and will constantly be updated for optimal customer support.
