

General

The NavInc interfaces allow for connecting audio/video sources to the original navigation system of Maserati.

The interface ensures that an input is created on the original navigation system, on which one audio/video sources can be connected (e.g. DVD player, DVB-T TV, iPod, etc.). The images will be displayed on the navigation screen. The audio of the video sources will be played in stereo through the original audio system of the car. The interface is also equipped with an extra reversing camera input for the connection of a reversing camera on the original system.

Besides the interface creates analog signals through CAN-BUS. With this signals it is possible to control a reversing camera or the power supply of an external AV-source.

The following output signals will be available:

- +12V switched voltage (max 500mA)
- +12V reversing signal (max 1A)

**Features:**

- 1x Audio/Video input
- Camera input
- PAL/NTSC support
- CAN-BUS output signals
- CE approved
- Plug & play cable kit
- Extension of double controls (DVD player + DVB-T) possible via steering wheel controls and radio unit.

The following is provided in the set:

- NavInc AV-interface IF-MAS-QP
- Plug & play cable kit
- Installation- and user manual
- One year software warranty
- Warranty
- Invoice

Product specifications

Voltage: 12V DC

Voltage-operating capacity: 10,5 - 14,8V DC

Standby current: >1 mA

Operating current: 230 mA

Power input: 1,8W

Temperature range: - 30°C up to + 80°C

Weight: 210grs

Dimensions(W x H x D): 105 x 30 x 102mm

Additional information:

- Check at the tab "compatibility" on top of this page if your radio or navigation system is suitable for this product.
- It is not possible to connect an original DVB-T TV tuner and an audio/video interface at the same time. The original DVB-T TV tuner must be removed.
- For image retention while driving use the TV/DVD free module - TF-MAS-QP
- Automatic activation of camera is not possible, this is only possible on interface level.

Optional:

De NavInc AV-interface can be extended with operating software which enables to control the connected DVD player or DVB-T tuner through the original steering wheel and radio controls. See INTERFACE - operating software:
